

Don't Raise Costs for Our Elderly Provide Quality Healthcare

The new for-profit owner of the former Keiro Retirement & Nursing Homes, Pacifica Companies, has said they will almost double the percentage of the annual rent increase. Pacifica, a multi-billion dollar development company headquartered in San Diego has failed to live up to its legal commitment to keep culturally appropriate healthcare the same for 5 years. Pacifica owns the Courtyard Marriott, please join us to ask them to keep their promise.

“Since Keiro sold us to Pacifica, conditions have worsened: food is worse, there is no real cook, only 1 security guard for the whole place at night. That’s why I left. They need to keep their promise to not change things for 5 years. Not raise costs.”

– Sachiko Morita, (former resident for 7 years) Mission Viejo, CA

“I’ve seen healthcare services going down, then they want to charge old people more. Something isn’t right about that.”

– Nobu “Nobu-San” Tokumitsu
(former Keiro Van Driver) Alhambra, CA

Join the community delegation to ask Pacifica not to raise costs & maintain the care they promised!
